GALA JOURNAL OF APPLIED SCIENCES

Publication Policies (A.4)

1. Publication Ethics Policy

The *GALA Journal of Applied Sciences* strictly adheres to international standards set by the Committee on Publication Ethics (COPE).

- **Authorship:** Authorship must be limited to individuals who made substantial contributions to the conception, design, execution, or interpretation of the research.
- **Integrity:** Submissions containing fabricated data, manipulated images, plagiarized text, or duplicate submissions will be rejected immediately, and the authors' host institutions may be notified.
- **Objectivity:** Editors and reviewers must evaluate submissions based solely on scientific merit, regardless of the authors' race, gender, nationality, or political philosophy.
