# GALA JOURNAL OF APPLIED SCIENCES

**Technical Guidance (A.5)**

## 5. ORCID Guidance

### Requirement & Implementation

The *GALA Journal of Applied Sciences* requires all corresponding authors—and strongly encourages all co-authors—to link their validated **ORCID iD** (Open Researcher and Contributor ID) during manuscript submission.

### Benefits of ORCID

- **Unambiguous Attribution:** Ensures your research publications are correctly linked to your personal academic identity regardless of name changes or institutional transfers.
- **Automated Syncing:** Works seamlessly with Crossref to automatically update your public ORCID profile once your manuscript is published.
- **Submission Integration:** Simply input your 16-digit ORCID identifier (e.g., `[https://orcid.org/0000-0000-0000-0000](https://orcid.org/0000-0000-0000-0000)`) into the journal metadata portal upon submission.
