GALA JOURNAL OF APPLIED SCIENCES

Publication Policies (A.4)

8. Corrections and Retractions Policy

Maintaining an accurate scholarly record requires clear protocols for addressing errors:

- **Errata / Corrigenda:** Minor errors or omissions that do not invalidate the scientific conclusions will be corrected via a formal published Erratum or Corrigendum note linked to the original article.
- **Retractions:** Articles containing fundamentally flawed data, unverified findings, or unethical practices (e.g., severe plagiarism) will be formally retracted following COPE guidelines.
