Abstract

A structured or narrative abstract of no more than 250 words describing the background, objective, methodology, key findings, and practical implications of the research.

Keywords: Keyword 1; Keyword 2; Keyword 3; Keyword 4; Keyword 5 (3–6 keywords required)

1. Introduction

Provide context, state the problem, review relevant literature, and clearly outline the specific aim or hypothesis of the study.

2. Materials and Methods

Detail the experimental design, data collection, analytical instruments, software versions, and statistical procedures to ensure full reproducibility.

3. Results

Present findings clearly using text, tables, and figures. Avoid redundant presentation of data across both text and visuals.

4. Discussion

Interpret results in relation to existing literature, address limitations, and highlight theoretical or applied contributions.

5. Conclusion

Summarize core findings and provide recommendations for future research or practical implementation.

Acknowledgments

Acknowledge technical assistance, non-author contributors, and institutional support.

References

List references according to journal citation guidelines in sequential order.
